FBI - MEMPHIS

Subject: - Perhaps ~~some of these things considered~~

(A) figuring a clue to "disguise" in case of the person who shot Dr. Martin Luther King,

Could it be that the deeply tan complexion color of face could have been done to the possibility B of the man being a "roulata" hence, skin tone

C As to the light color of hair - there are many roulatas or "high yellows" who are now "BLONDERING" their hair.

One of the roulata girls working on the Bldg. had her hair straightened at at 1st she appeared with her hair made light "BLONDERED" to a straw yellow

2 later when the silver or white hair became "streak", she had it dyed or bleached to a dull white. Her skin tone then seemed

D darker (D) the man who shot Dr. King was a roulata he could have done the same

thing - the bleaching of his ^{eyes} would
naturally cause skin contrast to look
darker - like a tan or sun tan -

Since the "flop house" or where-
ever this room shot from (I've heard)
catered to Negro patronage - it could well
have been a roulette, that was there
and shot, killing Dr. King.

In Honolulu some years ago
I saw the many pictures made
by Dr. Krause of the Inter-racial Commission
Study of "mis-racial " combination
in human faces. He had ^{many} hundreds
of pictures in this scientific ^{Research} Project.
He could work out by looking
at a Japanese whether they came
from island of Formosa or
Japan. (Different facial color)

Known because they Japanese
agent, he interviewed, was from
Formosa - and he told her so when he 1st ranker

→ I am of ... white heritage
on deep earth until I was 2 years
old and noted different types of negroes and mulattoes
there were negroes of many shades
there: those who had (mixed heritage)

White and Black - showed it - And most
Always on (lips) and (mouth) Others
the flattened wide nose - those

Who had Italian or Jewish white
blood " (Roman)
mixed with negro had just
the sort of clear cut beak-like
nose drawn in your artist:

assembled feature of the
supposed ancestor - So in
watching for facial contours I
can see you take all these in
consideration. And also the
possibility that the "Killer"
might have been a "negro-white"

so called "mullato" - "a negro albino" - would
mostly likely have had a white skin, all white
cottony looking hair and ^{white} eye lashes. The Killer would
have hair bleached light, then later dyed dark etc

1. Work at some later time by having
various eyes on hand on his side or where
you that may have been.
For a while on his early youth
and while on F.C. duty my young
son wanted to study to be an F.B.I. man

So I know a bit more than the
average of your method and splendid
research and great skill.

If a good eye witness saw
this "killer" run. His running
steps, or leg stretches would not
be able to be disguised. Could he be caused
to run suddenly again, without
warning, the eye witness if
really observant could immediately
pick up the individual leg action,
lifting, stretching movement.

Hope you will excuse liberty I take
in writing you. The situation is so
critical. There could have been some
jealous "mule" who hated Dr. King because
he had become so prominent and respected.

2. It has such racial power a mixture
It is not beyond the range of
possibility that some negro - or
"negro mutate" or a jealous planned
attack could have done this Valley.

I sincerely hope you apprehend this man.
He could even have been imported from
abroad (for the purpose which he fulfilled).
I have drawn and painted all my
life so I have always noticed faces
and I have seen white family likeness
reflected in the features of a mutate
often so much so in some cases the father
often could almost be identified.

All this is why I take the
liberty of writing you.

I do not know that even if
man is caught and is a mutate that it
will stop the hatred of the blacks for the
whites. But in some cases it might
help. The burden on your shoulders
is great - I pray that you shall be

God blessed in your ~~rich~~
and research - Such a
man could perhaps be located
through some ^{Church} congregation -
He had to be a fanatic or
"off balance person" to kill.

It has always been a
miracle how well your organiza-
tion has succeeded so often and
so well. Give power to you,
This case on which you are
working and all other cases.

Thank you in advance
for reading this.

With sincerest best
wishes at all times.

S. Rich
