

Memorandum

TO : SAC, MEMPHIS (44-1987) -P- DATE: 4/15/68

FROM : SA WALTER W. DUNKLING

SUBJECT: MURKIN
CR

On 4/12/68, Mrs. ADDIE ALEXANDER, residing at 1213 Ireland Street in Nashville, Tennessee, telephonically contacted the Nashville RA at which time she advised as follows:

She related she and her two daughters attended the funeral of Dr. MARTIN LUTHER KING, JR. at Atlanta, Georgia, and while they were on the campus where the funeral ceremony was held she observed a white male whom she thought was possibly identical with the killer of Dr. KING. She related that while Vice-President HUMPHREY was at this gathering she was on the lawn of the campus and turned for a moment at which time she observed this man and turned to her daughter, telling her that this man looked like the killer of Dr. KING.

She related that after her remark the man apparently took notice of her and she became petrified that he was going to kill her. At this time a Negro police officer approached the area and she observed the white man leave on foot. She stated she was so afraid that she did not say anything to anyone and after returning to her residence in Nashville and viewing an artist's conception of the killer as appearing in the local papers she felt she should relate this information for whatever value it may contain.

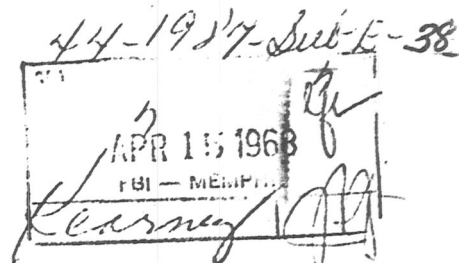

She stated the man's hairline very closely resembles that in the artist's conception as did his physical build. She recalled he was wearing a brown suit which was "very cheap looking". She stated she did not observe him enter a vehicle nor did she observe anyone with him.

The above information is set forth for information purposes in view of the investigation currently under way at Memphis and Atlanta, Georgia.
