ATTN: MR. HALTER

Gentlemen:

I 'phoned you several days ago and discussed the one white license plate on the white Mustang and should have two tags and you told me not all states had them.

It is all distressing to me as I have heart trouble; am paralyzed. It is agony to type this as my hands are drawn and it is with great difficulty I walk with assistance.

Now, I studied the sketch of the assassin and the features look like a woman! With the "Bonnie and Clyde" revival perhaps some cunning person is impersonating a man. Maybe the fingerprints are on file. I have been fingerprinted so many times in my Army-Air Force service that I keep my California license in my billfold because the fingerprint is on it. Of course I shall never be able to drive again.

Do you believe in ESP? A lady from Duke University. I think, told the police location of two bodies of girls from Austin University, and a certain lady predicted President Kennedy would lose his life.

I hope you can put the assassin in a secure place and not have another Jack Ruby case.

I am not listed in the telephone directory as it takes me so long to walk to the 'phone from another room, with help, so if you 'phone me, it takes 18 rings. My number is 274-6488. Operator gives it to ones who ask.

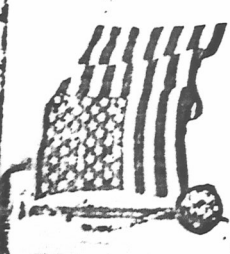

May our Heavenly Father bless you and all dear to you.

Sincerely For God and Our Country

PS: I also told you some of us at the Air Force Association in Chicago several years ago were discussing some chemical negroes would take and would make them "white" temporarily! There was an article in the paper there giving the name but I do not remember it. I have seen Southern white men in minstrels when I was a young girl and they were "made up" and one couldn't tell it on the stage.
