Reurtel 4/18/68.

Re information from Dr. PAUL BEREND, NYC.

On 4/24, 25/68, all guest registration records at Holiday Inn, 4th and Town Sts., Columbus, Ohio, for 4/4, 5 & 6/68, were reviewed with Manager, RONALD H. HOWLETT by SA FRANCIS X. FUST, JR. On each of these three days, nearly all of the 250 rooms were occupied. Dr. BEREND was a guest through 4/7/68.

Above review of guest records could not suggest identity of two males described by Dr. BEREND, and since time of day when Dr. BEREND allegedly observed the two males was not furnished, no specific duty employees could be pinpointed for interview. All information pertaining to subject RAY, Aka., is prominently posted for all employees at this Holiday Inn. All employees were again alerted and none could furnish any additional information, nor could anyone recall in particular the two males described by Dr. BEREND.

Unless Dr. BEREND is in possession of additional information to pinpoint the time of the day, approximate ages, unusual dress, etc., no additional investigation is deemed necessary on this lead.
