Attached hereto is insert containing info from

[REDACTED]
Memphis, who claims he saw man on 7/3/66 he is sure is identical with RAY. Noted from insert [REDACTED] claims to have called FRANK HOLLOWAN same day and furnished this info. Therefore, MPD may already have this info if HOLLOWAN thought enough of it to write it up or tell anybody.

Evaluation: [REDACTED] is a big talker, but one who doesn't want to "get involved." He probably has told story so much he believes it himself now. Told this Agent when Agent looked at some tires and learned identity of Agent. Undoubtedly furnished facts he had read in newspaper and then blew up story with the slug and machine gun.

LEAD: Suggest Agents handled MURKIN leads check indices and if no record this info check with PD before having Jackson conduct any investigation to eliminate HUBERT FREEMAN.
