Birth date and Birthplace					

Facts of complaint

Complainant said he has carefully reviewed the photos of JAMES EARL RAY as reflected on IO # 4182 and has come to the conclusion that the 1960 photo of RAY is not ident with the 1968 photo in this IO. He thinks they are photos of two different persons for the following reasons:

(1) 1960 photo (middle photo on IO) of RAY reflects his openings of nostrils are about three times ^{larger than} the openings of nostrils in 1968 photo.

(2) 1960 photo shows two extreme depressions of his left ear; and also this left ear has a pronounced ridge. On the other hand, the 1968 photo on this IO depicts no depressions or ridge of his left ear.

In view of above nose and ear observations, complainant said he wishes to call to the attention of FBI his conclusion that they are not photos of one and same person.

Above for info.
