MARINA DEWALD was mad in Russian, the letter and she said that the letter had been shown to her today in the original Russian, by the Secret Service. The said this letter she had found in JJL's room where be kept his things at the Neeley Street address schetine last spring, the date she cannot romonicar. She said she rescubered it was one night, and USWALD did not arrive home when . he should have. Whe became worried about 10:00 PN and went into his room and saw this letter. Later OSWALD came rushing in, very gitated and excited. He turned on the radio immediately and lay down on the bed very pale. She asked him what was wrong and he confessed that he had taken a shot at General WALKER but did not know whether or not he had hit him and wanted to hear on the radio whether or not be had bit bin. She blamed him for trying to take a life. We told her that General WALNER was leading the Facist organization here and it was bust to remove him. She was quite releved when she found out he had missed General WALKER. She did not see him take the rifle from the house that day nor did she remember him bringing it back that day. She believes that the rifle he used to shoot at General WALHIN was the same she had seen in his respession at the Neeley address and the PAINE house. She said she kept this note so that she could use it to threaten him in the event he thought up some other crazy scheme. She told him Unit the woold go to the police with it is in thought up anything ela - Elle Chicogain.
