JACK LEON RUBY, aka

At 12:15 PM this date, Inspector JAMES MALLEY advised that in connection with the request for a summary teletype every Monday in connection with the RUBY case, that we could at this time disregard that, since we are submitting reports regularly. He said also we could disregard the total number of interviews conducted to date, but that we should from now on, know how many interviews have to be conducted and keep a progress report on how many new ones come in and how many we have concluded so that if he has to give a definite report to the Director at any time, we can answer the same, but not necessary to put it in a teletype.

With regard to the teletype to all SAC's dated 12/12/63, received at this office at 5:20 PM, he referred to the following instruction: "Numerous complaints are being received alleging that some person or group other than OSWALD and not connected with OSWALD planned on executing the assassination. These matters should be reported under the caption ASSASSINATION OF PRESIDENT KENNEDY. Unless urgency dictates otherwise, submit by airtel accompanied by letterhead memorandum suitable for dissemination." He said that with respect to the various items referred to above that have already been handled and are now in the process of being reported, that we should submit a report under the Assassination of President KENNEDY title, having absolutely nothing else in it except these particular items, and we can therefore disregard the submitting of a letterhead memorandum in this connection. Any future items, however, that come up should be handled as the instructions set forth.
