# Memorandum

TO : SAC, DALLAS (100-10461)

DATE: 2/22/64

FROM : SA ROBERT P. GEMBERLING

SUBJECT: LEE HARVEY OSWALD, aka.  
IS - R - CUBA

According to entries for late October, 1959, in OSWALD's "Historic Diary", he attempted suicide in Moscow on 10/21/59, by cutting his left wrist. MARINA OSWALD in interview has stated she recalled seeing a scar on the inner left wrist after she married OSWALD. This scar, she said, was completely healed, and when she would ask him about it, he would evade answering her.

The Bureau has instructed that additional information concerning the scar on OSWALD's left wrist be obtained, such as statements of observations by police or others, including the undertakers, and copies of reports, such as an autopsy or other report which might contain information concerning such scar.

The report of SA ROBERT P. GEMBERLING, dated 11/30/63, on page 410, indicates that Mr. C. J. PRICE, Administrator, Parkland Memorial Hospital, would likely have the records pertaining to OSWALD's treatment on 11/24/63, and that OSWALD was apparently treated by Dr. ROBERT SHAW and Miss AUDREY BELL.

Also reflected in this same report is the fact that CHARLES B. MILLER, Miller Funeral Home, 5805 Camp Bowie Boulevard, supervised the embalming of OSWALD and stated that an abdominal and cranial autopsy had been performed at Parkland Hospital on OSWALD. Mr. MILLER also stated that the "six-point embalming" method had been used, which means that the arms, legs, and abdomen were embalmed individually. The actual embalming was performed by PAUL J. GROODY of the Miller Funeral Home.

Investigation conducted indicated that Captain WILL FRITZ of Homicide and Robbery Bureau, Dallas Police Department, interviewed OSWALD on several occasions, and on several of such occasions, SA JAMES W. BOOKHOUT was present. On page 92 of the 11/30/63, report, there is set forth a description concerning OSWALD by SA MANNING C. CLEMENTS, however, no scars are indicated in such description.
