Honorable Charles S. Cubser
Congress of The United States
Washington 25, D.C.

Dear Congressman Cubser:

You will find enclosed some copies of our correspondence concerning the President's Commission on the Assassination of President Kennedy.

Hopefully you will agree that these should see the light of day.

Accordingly, would you be averse to my releasing its substance to one of the newspapers in this area?

I have already discussed this with Dr. Stefan Passony of the Hoover Institution and with Russ Walton. The latter suggested that I once again outline my background in order that you will understand I am not a novice in these proceedings.

I am therefore attaching a short statement to that affect.

May I hear from you about this matter?

With best wishes.

Sincerely,

100-10461-3733
