Dear Sirs:

We have been thinking about the
assassination of President Kennedy.
Although we may not be of any help
we are very interested in the case.

We know that 3 bullets were shot, even
though you found 5. It is possible that
Ruby was in the building with
Oswal. Could it be possible? So that Ruby
killed Oswald to keep him from talking.

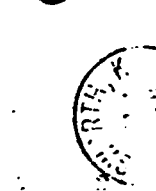

Please write us and give us information
on the assassination.

P.S. Please write us soon!

Truly yours
Vicki Weaver
