

UNITED STATES GOVERNMENT

# Memorandum

TO : SAC, DALLAS (100-10461)

DATE: 8/27/64

FROM : Suprv. RAYMOND C. ECKENRODE

SUBJECT: LEE HARVEY OSWALD, aka  
IS - R - CUBA

At 10:25 a.m. today, Inspector J. R. MALLEY at the Bureau called to advise he had just received a call from Commission representative JAMES WESLEY LIEBELER concerning a telephone call the latter received last night from MARINA OSWALD. MALLEY said according to MARINA she had located amongst some old magazines a copy of "TV Guide" for the week 9/28-10/4/63 and that between the pages of this magazine she found a bus ticket issued by the Mexican bus line Transporte Del Norte for travel on 9/30/63 from an unnamed point in Mexico to Laredo, Texas.

Inspector MALLEY stated the Commission was most anxious to have MARINA interviewed immediately in detail concerning the above. He noted in passing it appears the above discovery merely tends to corroborate further information which the Bureau had previously developed and resolved during the course of this investigation. Inspector MALLEY stated, however, in view of the expressed interest of the Commission in this matter, that Dallas immediately arrange an interview with MARINA today for full particulars in order to develop from her all information bearing on this matter. He instructed that the ticket in question, if at all possible, be obtained from MARINA for transmittal to the Bureau. Inspector MALLEY cautioned that care be exercised in handling the ticket since in all probability the Laboratory will be requested to examine it for possible latent prints in other areas. He suggested prior to the transmittal of the ticket that Dallas make copies of same for our files if adequate facilities are available. In this regard, he noted it is possible the ticket may be in color and, therefore, perhaps it would be advisable to have color photographs made of it for our files. He said if Dallas could not do this, we should request the Bureau to make the necessary copies for our files.
