name of complainant (firm name) = first name imitial OFFENSE AS REPORTED AND DATE OFFENSE SERIAL NO. alker, General Edwin A. Burg. by firearms 4/11/63 **F-48156** 4/10/63 FIGNAL DETAILS, PROGRESS OF INVESTIGATION, ETC.

Contacted the complainant on this date, Through interviews with the employees, who are all voluntary workers at this location. General Walker stays in the house at night alone. Investigation reveals that an unknown assailant in all likelihood fired the shot from the alley directly north of the rear part of the house. Investigating officers found a very small chipped edge of the top portion of the rear fence. This small chipped portion indicated that something had been laid on this board very recently, as this was a fresh chip. In lining up the path of the bullet, it would indicate that the shot was fired from just below the chipped portion of the fence. The bullet struck the window frame near the center locking device. From the point where the bullet hit the window frame to the point where it struck the wall is a downward trajectory. The back yard is an up-grade to the alley. The fence in the rear of the house at the alley is a lattice type fence made out of wood approximately lx6, with approximately 8" open spots. It is the investigating Officers opinion that the shot was fired from just below the top edge of the fence. The Walker home is adjoined by a parking lot of a church to the east. The alley truns into the rear part of the parking lot. The alley then takes up in a northerly direction into Newman street. The witness, Kirk Coleman, lives at the north east corner of the Walker property just across the alley and directly across north from the church parking lot. This person has not been contacted by us as he is a school boy, but will be contacted at a later time as he could furnish valuable information from which he observed the incident. An interview with the volunteer workers revealed that they had not received no crank calls or letters preceeding the incident. An interview with Mr. Surrey reveals that two white men in a 1963 Ford, dark purple or dark brown parked in the alley directly behind the complainant's house just off of Avondale street. These persons were witnessed getting out of the car and walking up to the property line and smoking the place over. Mr. Surrey became suspicious of these subjects and followed the car away from the location in an attempt to get a license number. Mr. Surrey states that there was no license plate on this car either front or rear, possibly this was a new car. A thorough -search of the premises revealed no spent cartridges , no tracks or other evidence \sim of value. The neighbors dog to the west of the Walker property is a fanatical barker but on this incidence did not make a sound. Gen. Walker recently accepted the position of Military Editor for a monthly magazine the American section of Military Editor for a monthly magazine the American section of Medical has traveled extensively since. It is assumed the suspects had a minimum of Medical has traveled extensively since. It is assumed the suspects had a minimum of Medical has traveled extensively since. From where the complainant was and from where the shot was fired from the distance is appropriately was and from where the shot was fired from the distance is appropriately was there are no window shades.
