

Dear Robert

State Prison, North House
Dallas, Texas

Dear Lee - I have just heard of your arrest over the Yankee net work here in Massachusetts. Thank you (if you did it). The chief of police here in Greenfield called my son and told him the secret service was watching me. Yet while they were suppose to be watching me. Every Tom, Dick and Harry entered my home and stole and borrowed anything they felt like taking. If they wanted to return it, it was returned, if not it was never returned. A great many things were nicked, paint was put on different articles and the floor in places were scraped bare. Yet, mind you, the secret service was watching me all the time. That was what happened to my home and what happened to my four children, you, not in one else would believe. Never again, thank you, if you did

it.

Sincerely,
(Tom) Rose Coburnman
