To Be Returned

Enclosed is a written letter headed
117 Mason St., Rockford, Ill.
Addressed near the ...

237 Mason St.
Indianapolis, Ind.

Dear Mrs. Oswald

I just read a writeup on you, I have been alone for the past 19 years, I have worked very hard to feed and clothe and train my children, no one ever gave me a dime, not even to help hunt my Son after he was forced by the commies to leave home, he was gone 7mo. before I knew where he was, you see we are white and no one in this country cares for the poor white Americans, only the Negro and those from other countries are helped here, unless they are rich.

You see the commies got my Son when he was only 16 and doped and brain washed him, they turned him completely against me, they tried to take him from me by fraud, when I finally got him back on the right track they had their teenage hinchman to beat him almost to death in fact we know they were supposed to kill him, he was been in school hall and left for dead, he is permanently injured and disfigured for life no one has turned a helping hand, there is no justice for Americans but the commies and the Negro must be cared for and of course those like you who do not belong here must have every thing, the ones that give to you would not feed a poor white American child, how do you think we Americans like my self feel when we read of how much has been given to some one like you, I truly feel for your children but not for you as you have never seemed to mourn for your husband I feel you married him only to get into this country.

10 You see I tried very hard to get help, I sent a letter Boby Kennedy telling him what had happened to my Son he did not care enough to write me, if we were Negro or from another country he would have hopped a plane and tried to help me, but no I am a white American we are supposed to take any thing and like it, and no one will lend a helping hand, I also turned this over to our so called N-I did they help no, I apealed to churches did they help no, I have a damage case coming up but I do not expect to get anything out of the commies can do anything in this country and get by with it.

Your troubles are so small compared to mine, you see mine are everlasting my Son has an eye that will sink back in his head an inch he was such an intellegent boy a born writer but now there is nothing for him in life I dont think his mind will ever be any good any more you should know more about this than I do, how can a human do so much to another human and only a child, I am very bitter yes why shoulde I be it was forced up on me by whom the commies the brutes, they have brain washed 90% of our teenagers this will make you very happy to know the party is gaining so fast.

If you dont believe what I have told you about my Sn go see for your self he is at Fort Hood Texas his name is Ricky L. McDaniel no R.A. 14-819-640 CO. B16th. Eng 1st AD go see him and take a good look at what the party did to an innocent boy, a boy that was such a good boy and was always so good to me and now hates me because of them I wish I could kill all of them, but that would be to good for them it would be better to make them suffer from now on, would you like for this to happen to one of yours how would you feel, are you going to all that money to help brain wash more of our children I do not doubt it, why dont you go back where you belong back Russia we dont need you here we have to many of your kind here now.

I am sure your country would not take an American

widow and children in and care for them why should we take you in and care for you while thousands of our own need help, but they will never get help as long as we have the kind of Government we now have and the kind of people we have.

As for Mrs. Kennedy I am not sorry but hate to see children with out a father I know what that is like, he was warned about ~~the~~ going to Texas the one we have now is much worse than Kennedy and he was nothing almost ate out of Nick's hand so what did we loose.

I hope you will take a look at my Son it might help you to have a heart an change your way of life if you could picture one of yours in the same shape and the torture you would go through, if you will put this letter in the paper Mrs. Oswald and you have ~~money~~ money to do it, it might help a lot of people to change for the ~~best~~ better thores a great need change.

I havent told the full story but enough I believe for you to understand what I am telling you, I believe in freedom and justice and liberty for all but its all been washed down the drain by communisim you dont know how bad that hurts the true American.

It seems most every one can be paid to do anything no matter how bad it might be, when any one is low enough to ruin a child's whole life for their own gains thats pretty low indeed.

A true American and proud to say so.

Mrs. Eliza McDaniel
