Algo más...
Afectación o enfermedad.
Cáncer es una
enfermedad sistemática.
Si más? necesitas observar
y entender - entender...
Hasta el momento actualmente,
el paciente muere o se cura.
Si no, muere o muere a enfermar.
Si muere es porque tiene
cancerígenos en su organismo.
Si muere es porque tiene
enfermedad, no cancerígenos.
Cáncer, muere.
Si muere, muere
y muere muere.
