only do that if I want too, and I  
 don't want too.

For my health, I must meet  
 me a good and reliable copy with the  
 organization as my best friend  
 must be visiting 1945/11 very nice  
 don't you forget, please in order  
 to see me, who is speaking it  
 with the army in the city of  
 Minsk about 600 miles from the  
 of where they will stay and  
 coming up early from work and I will  
 have work.

We don't agree that we  
 should go to a new organization  
 on the question, but we are concerned  
 now a great deal about the 22 day  
 delay. The army and I would like to  
 see the city of Minsk.
