Don M. Striffler - Lee Harvey OSWALD

Thank you for your letter of August 14. I have made contact with your agent and have also tried to write his letter. In his last letter he mentioned that he had to see an agent. Now, that I have received your letter and know that he visited the Embassy I feel he is really trying to return home. There are no more agents of this case that I don't understand, but I guess I can't make suggestions. In any case I am most grateful for any further help and sincerely thank you and all the men in the Department for the help you have given me in the past.

Sincerely,  
Margaret Oswald
