I am still opinion, that the forged, and impugned signature of this document would be unlawful.

One I want in summary that the American Embassy support the view, that the forged and impugned signature of the temporary document for admission in the Soviet Union, of a citizen of the United States, would be unlawful?

The document in question, was shown at the American Embassy, by me, on July 11, and I believe it could be shown, as well as its temporary nature and markings.

However, in case you do not have information as to, how are the following:
