

DEPARTMENT OF STATE INSTRUCTION

I 47

OFFICIAL USE ONLY

SUBJECT: CITIZENSHIP AND PASSPORTS: Lee Harvey Oswald

TO: The American Embassy KNOX

The Embassy's Dispatch No. 535 of February 28, 1961 concerning Lee Harvey Oswald has been studied with particular reference to the last two paragraphs thereof.

If Mr. Oswald notifies you that he has a bona fide intention to return to the United States and informs you of his proposed travel plans, it may be considered that he needs a valid travel document to arrange his departure from the USSR. Under these circumstances, if Oswald is unable to call in person at the Embassy and if you are fully satisfied that he has not expatriated himself in any manner, you are authorized to grant his United States passport to be valid for his direct return to the United States and effect its delivery to him by rail under proper safeguards.

The Department is not in a position to advise Mr. Oswald whether upon his desired return to the United States he may be amenable to prosecution for any possible offenses committed in violation of the laws of the United States or the laws of any of its States.

The developments in the case of Mr. Oswald should be promptly reported. In particular, a report of his travel data should be submitted if the Embassy receives information of his confirmed travel plans.

It may be added that Mrs. Marguerite Oswald has been informed of the address given by Mr. Oswald in his recent unrelated communication referred to in Dispatch No. 505 and of his desire to return to the United States.
