

(Local Police Mum On Oswald Probe)

Mexican police authorities yesterday refused to acknowledge their participation in the activities of Lee Harvey Oswald during his visit to Mexico City. Informed sources said, however, that various Mexican police corps are cooperating in the investigation carried here by three Americans, David W. Slawson, Howard P. Williams and William T. Coleman, on the steps of the alleged assassin of President Kennedy.

Oswald, shot to death by Jack Ruby in Dallas, Texas, visited Mexico Sept. 26 and spent one week here. Reportedly, Oswald visited Mexico City to obtain a visa to travel to Cuba and the Soviet Union.
