modern: It grows better in the times - Herald of
 Communism is a growing idea, an all-pervading philosophy. It is
 spreading over the face of the earth. It is as accurate to resist it
 as it would be to try to correct the course on the ocean.
 It is coming all along the line. The greatest movement in history.
 It bears the scars of a thousand defeats but it grows
 stronger and more invincible than them all, and it will
 never lay down the weapons of its peace-loving crusade,
 never cease its holy war, until its triumph is complete and
 sets the whole world free.

I might add that its about time the working people of our
 country took a good look at the rigged political system which
 has all of us in a straight jacket. It is a sad state of affairs
 when a country bids over 200 million a national election in
 which the millions in organized and unorganized labor, the
 negro, the small farmer, the fisherman and the housewife have
 no real candidate of their own and no party which truly
 speaks for them. In no other major capitalist country - France,
 England, Canada, Australia, Sweden, Norway, Italy, etc. - would
 such an election be held today without a labor party
 party of sorts campaigning for the labor candidate bidding for the people.
