

Been written?
Let's not let us get your tele-
grams and letters that you
are at home, safe and sound.
We were worried about
you, we did not know where
you were and what was
happening to you. Now it's
all over.
I miss you very much.
Our big room is also empty
now. Our work is also
in different shifts with
wife too in a day time. I'm
especially alone and I
often think about you. I
always remember you.
I hope my boy is
not suffering, just
to the extent of his
place. Every day in the
world, his boy has killed
with Mick and I want to

the forest near the lake
(before we went to school
all). I had the feeling
that you were gone -
where around? I missed
you so much.
Thank you for your
present. The sweater
is very nice and the
color suits me.
I kiss you many,
many times. I'm so
sorry that you feel
not so well. Hope
my best wishes to
get you and your bro-
thers. Yours Leo.
