Re: LEE HARVEY OSWALD, aka

Specimens received 2/17/64

Q494 One 8 mm motion picture film and one 16 mm movie film showing the assassination of President Kennedy which were obtained from Mr. Bart Reinhardt of UPI and which are copies of the 8 mm film made by Mrs. Marie Muchmore, Dallas, Texas

Result of examination:

The assassination portion of the Q494 film was found to contain only 66 frames with an elapsed time of approximately 3 seconds. This does not include the portion of the film taken along the motorcade route prior to the actual assassination. The third shot is recorded in the forty-second frame of this sequence.

Specimen Q494 is being temporarily retained and will be returned to the New York Office when it is no longer needed by the Laboratory.
