Dear Mr. Hoover:

I am 14 and have been studying out the Kennedy assassination. As of this letter Oswald is the prime suspect. I have reason to believe, in addition to what the police and F.B.I. have uncovered, that Oswald could be guilty.

It has not been confirmed that Oswald did not become a Russian citizen. Perhaps he didn't become one, but he might have become associated with the Communist party. I saw a movie, AND THIS IS NOT A FANTASY, about a tricky communist BRAINWASHING! The movie was called the "MANCHURIAN CANDIDATE." Please get a hold of this movie and study it carefully. It starred Laurence Harvey and Frank Sinatra. It is very possible that Oswald committed the crime unaware of it. There could have been a communist contact that devised a method as in the movie.

I BEG of you to get a hold of this movie. Perhaps it's nothing, but then again there's always a chance.

Sincerely  
Sally Weyand
