Dear Sir:

Pardon me for communicating briefly with you again. And please KNOW that this writer is not given to hallucinations, "visions", and such. He is a down-to-earth minister of the Gospel that just happens to have had certain vantage points for observing what is going on - particularly from the angle VIA Mexico. That is all. What I want to add to my previous alert and expression of opinion is this:

The Cuban Embassy in Mexico City is THE propaganda distribution CENTER for the whole of Mexico... and you I'd be the principal (such) center for the whole of South America. This I say NOT because I am against Mexico. I am a fervent believer in and booster for the Good Neighbor Policy. I am giving you my observation in RE as a contribution to FACTS that may prove of some significance in the RIDER solution of the TRAGEDY of three days ago. On ONE occasion I managed to get a hold of upwards of 80 "behind the curtains" magazines MADE AVAILABLE AT AND THROUGH the above Embassy. Pentecost is itself, and fantastic LITERATURE. This situation DEFINITELY bears into - and I have NO hesitancy in so telling you.

And THEN detector Fidel Castro's 2-hour violent attack on U.S.A. via his contribution to the universal condolences; PLAYING DOWN, DENYING, and BARCAS- RICALITY RIDICULING the incontrovertible FACT of the assassin's connection

with the Castro contemptible communist ramifications. While only tends to strengthen the opinion (if not conviction) expressed in my communication of two days ago. STAD MEN DON'T TALK. And THIS character simply H A D to be stopped from talking... I.e., in Court. It would have had devastating effect on the COMMUNIST front in Russia, and elsewhere - and particularly and especially in Cuba. I trust, therefore, that NO stone will be left unturned until we of the United States of America K I O V WHAT the links were, are, have been between this mystic assassin of our President, and the situation in Cuba - and Fidel Castro in very particular.

In closing permit me to say that I understand perfectly well that these will have crossed the minds of you all concerned, and that I am in no way any "prophet" in RE; but I nevertheless am DETERMINED under God to add to the General alert, and to PRESS upon you my deepest and considered fears.

Most respectfully yours,

Geo. A. B. Oat

P.S. Because of obvious reasons this writer would prefer to have his name remain incognito. Thanks.
