J. Edgar Hoover Director  
Federal Bureau of Investigation  
Washington, D.C.

Dear sir:

I think from what evidence I can get from the newspapers, radio, and television that there has been the greatest miscarriage of justice in having the accused slayer of the President murdered that has ever been pulled off in America.

Following are a few of the things I think you should have the police in Dallas to explain.

1-Why did Oswald not have legal counsel?

2-Why did they advertise the time they were transferring Oswald from the city jail to the county jail but not advertise the time Ruby was being transferred?

3-Why did they let Ruby come in and murder him?

4-Why did they have Oswald buried before anyone could get to look at him?

5-What happened to the gun they found on the overpass from which the man and woman were seen running immediately after the President was shot?

6-Has the John Birch Society ever been investigated by the F.B.I.?

7-Why do they guard Oswald's grave as no one can hurt him now?

8-Why did they stop investigating as soon as they picked Oswald up?

I feel that these same questions are in most Americans' minds whether they express them or not. And I think America wants an answer.

Yours sincerely,

Crockett Osborne

P.S.

Why did they drag Oswald back in the jail after he was shot and wait for an ambulance to come get his body instead of trying to rush him to the hospital in the armored car?

While working in the coal mines of W.Va. they taught us in first aid that the sooner treatment was started by a doctor the better the chance for survival and recovery.
