 Washington, D.C.

Dear Mr. Hoover:

As an American citizen, I feel the responsibilities you have, must also be shared by every American. It is with that thought, that I make a suggestion in the fourth paragraph of this letter.

What I have to say, is in reference to the assassination of our late President John F. Kennedy; and his deceased accused assassin Lee H. Oswald.

This past weekend has been a most horrifying experience for all the people of the world and most damaging, to the United States. Communist newspapers are using it as a propaganda booster. Some (newspapers) refer to Oswald as a martyr, others as a conspirator. I think we should counter-attack these statements as soon as possible.

Is it not possible to gather all the information you now have, and feed it to a computer? Just the information which is given to newspapers, I feel is enough to come up with an answer, most likely showing that Oswald was the assassin. I think, this would at least chip a gear in the Communist Propaganda wheel.

If you have already used this technique, then please take this letter as an American Citizens' slight contribution to his country.

Yours truly,
Arthur R. Iannelli

I would like some type of reply. I also would like to compliment you on the tremendous accomplishments your department has made in giving this country a great feeling of security.
