For information of Dallas and New Orleans, LOWMAN operates Circuit Riders, Inc. as a private organization engaged in combating the use of church facilities by Communists or other un-American groups. Bureau has instructed contacts with LOWMAN be most circumspect. Cincinnati receives information from LOWMAN but does not initiate contact with him. Bureau has advised caution should be used in dealing with LOWMAN so as not to become involved in his personal brand of extremism.

Although the data in attached FD-302 is purely speculative without a shred of fact relating to LEE HARVEY OSWALD, it is nevertheless made available to Dallas and New Orleans inasmuch as Cincinnati is not familiar with details concerning the activities of the persons involved in these allegations.

LOWMAN requested that in the event interview of JOSEPH D. VINSON is necessary that VINSON not be made aware his identity was furnished FBI by LOWMAN because he fears this would compromise his position. LOWMAN states VINSON has worked with him closely for several years in connection with "Communist activities in Southern United States" and their relationship has always been on a personal confidential basis.
