Dear Miss Polin:

Your letter was received on December 2nd.

In response to your inquiry, I would like to point out the FBI has conducted a full investigation into this matter. For your information, photographs were brought to our attention showing more than one person in an upstairs window in the building from which the shots were fired at President Kennedy. However, careful examinations of these photographs determined that these persons were in a fifth floor window, whereas the fatal shots were fired from the window above, on the sixth floor. I thought you would like to know we have, of course, interviewed the spectators who were at the fifth floor window, during the course of our investigation.

Sincerely yours,  
J. Edgar Hoover

NOTE: The General Investigative Division has advised that an enlarged photograph taken from a motion picture indicated that neither of the two persons in the photograph was Oswald. These have been identified and it has been determined they have no connection with the case.
