The remainder are sold to individuals in all states and include many purchasers out of continental United States, rrangements can be made for Chicago to review the above ecords and set out appropriate leads. It should be noted hat many of the customers will have common names and reflect as their residents New York City, New York, Philadelphia, Pennsylvania, and so forth. In addition there are names of customers who list New York and San Francisco APO numbers reflecting residence, in 1962, at foreign military posts.

It is requested that the Bureau and/or Dallas advise the Chicago Division as to whether above project should be initiated.
