SUBJECT: ASSASSINATION OF
PRESIDENT JOHN F. KENNEDY
VISUAL AIDS

Reference memo Rosen to Belmont 3-5-64.

Attached are three brochures which contain exhibits that photographically and diagrammatically depict locations, actions and things surrounding the assassination that the Presidential Commission has urgently requested of the Bureau to be available when certain witnesses are examined. Every effort was made to make these brochures as complete and adequate as possible by anticipating the needs of the Commission beyond their requests. For example, although no request was made for a basement plan, it was apparent that a plan would be needed to assist a material witness in describing his whereabouts in the basement area. These exhibits should adequately meet the needs of the Commission with respect to what happened at the Texas School Book Depository, Dallas, Texas, and the Paine-Randle Homes in Irving, Texas.

Five copies of each brochure were delivered to Inspector Malley of the General Investigative Division for distribution. Additional copies of these brochures can be prepared in whatever number is desired.
