Eonorable J. Lee Rankin

All of the persons interviewed in connection with this matter were specifically asked if they had observed any suspicious actions and for the identification of other individuals who may have observed pertinent activity in this area.

In view of the above no further action is being taken in this matter.

Sincerely yours,

J. Edgar Hoover

NOTE: Commission by letter 3/20/64 made reference to numerous allegations appearing in the press that President Kennedy was shot from the triple overpass. This speculation was probably prompted by statements issued by several doctors affording President Kennedy emergency treatment at Parkland Memorial Hospital in Dallas, to the effect the President had a nole in the front of his throat. This statement was pounced upon by some journalists as inferring this was a bullet entry hole, which is not the case.

The Commission requested we interview all persons in the vicinity of triple overpass insuring that certain specific questions were asked. Since we have interviewed all persons known to have been in this vicinity and each has been exhaustively questioned, no further action appears warranted. Dallas has advised the additional interviews conducted as indicated in the above letter will be set out in the next report submitted which report will subsequently be sent to the President's Commission.
