In addition, Captain CROWDER identified the following units appearing in the above referred to transcript as follows:

Unit 1802 was the mobile unit (automobile) assigned to the Chief of Redio

RE: ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY, NOVEMBER 22, 1963, DALLAS, TEXAS

Unit 1805 was the portable unit set up at Parkland Hospital, Dallas, Texas

Units 66 and 77 are the Texas Department of Public Safety airplanes

Captain CROWDER stated all remaining unit numbers are automobiles.

This supplements the information set forth under date of March 23, 1964, reflecting a transcript made available on March 20, 1964, by Sheriff BILL DECKER, Dallas County Sheriff's Office, of all radio transmissions emanating from the Dallas County Sheriff's Office during the period 12:20 PM, November 22, 1963 to 6:00 PM, November 24, 1963, as they relate to the assassination of President JOEN FITZGERALD KENNEDY, the murder of Dallas Police Officer J. D. TIPPIT, investigation of said assassination and murder, and the security and movement of LEE HARVEY OSWALD to the Dallas County Jail.

CHARLES PLAYER, Supervisor of Training, Dallas County Sheriff's Office, advised on March 31, 1964, that the Dallas County Sheriff's Office operates on two main radio channels and is identified as KKE 891. PLAYER stated the Dallas County Sheriff's Office rarely uses 10-signals because of the number of small police departments in Dallas County who contact them by radio and who are unfamiliar with the 10-signals, other than the 10-4 acknowledgment signal. He stated that they generally use normal conversation in their radio transmissions.

PLAYER identified Station 1 as the automobile unit assigned to Sheriff BILL DECKER; Station 5 as the Dallas County Sheriff's Office Dispatcher located in the Dallas County Criminal Court and Jail Building. The other numbers in the above-referred to transcript refer to automobile units, with all units in the 500 series being reserve units. He stated that Code Numbers 1 through 6 refer to calls being answered by automobile units with the urgency of the call being designated as follows:

This supplements the information set forth under date of March 23, 1964, reflecting a transcript made available on March 20, 1964, by Inspactor J. HERBERT SAWYER, Dallas Police Department, of all radio transmissions from Channel 1 and Channel 2, the Dallas Police Radio Station KKB 364, covering the period 12:20 PM, November 22, 1963 to 6:00 PM, November 24, 1963, as they relate to the assassination of President KENNEDY, the murder of Dallas Police Officer J. D. TIPPIT. investigation of said assassination and murder, and the security and movement of LEE HARVEY OSWALD to the Dallas County Jail.

On March 31, 1964, Sergeant JAMES C. BOWLES, Radio Dispatcher Supervisor, Dallas Police Department, Dallas, Texas, advised that most of the broadcasting done on Dallas Police Radio Station KKB 364 is done on Channel 1 with Channel 2 being used on an alternate basis. He said the Dallas Police Department does not use the 10-signal system other than the 10-4 acknowledgment signal. He said they have developed their own system of signals, which are identified as follows:

In addition, Sergaint BOWIES advised that Alert 2 is a standby call for a potential airplane crash problem at Love Field, Dallas, Texas, with Alert 1 indicating the problem has already occurred. He said 743 refers to the 7:00 AM to 3:00 PM traffic detail. Station 5 is the Dallas County Sheriff Dispatcher and Station 7 is the Park Department's office radio, BOWIES stated. He said "AFE" is the Accident Prevention Bureau and "NEC" refers to the National Broadcasting Congany.

Sergeant BCWLES advised that a capital "A" or a "2" appearing behind a wait number indicates that a second unit is working out the same call number simultaneously assigned to another unit. As an example, he said Unit 15 is the Radio Patrol Commander with 15/2 being the second unit assigned as above.
