NOTE:

Commission by letter 3-16-64 advised Rowland testified on 3-10-64 and made allegations he observed "an elderly Negro" on the sixth floor of the TSBD where the shots were fired from. Investigation disproved this. Rowland also made comments that he was an "A" student and had an IQ of 147. The Commission wanted appropriate background and had an IQ of 147. The Commission wanted testimony. Investigation conducted to verify Rowland's from high school, he was not an "A" student, his IQ was 109, and was further described as a "conniver and prevaricator" whenever it to his advantage. Other comments he made before the Commission concerning his exaggerated background have been disproved. The letter head memorandum by Dallas concerning this matter contained various scholastic records which revealed various abbreviations, and Dallas has been requested to submit certain revised pages for clarity prior to dissemination to the Commission.
