[It has been necessary for the Bureau to communicate on two occasions with your office in an effort to obtain a suitable communication for dissemination. You are instructed to immediately prepare an acceptable product for dissemination by the Bureau. No further delinquencies will be tolerated.]

[Milwaukee is instructed to submit separately appropriate explanations from the Agent handling this matter and the supervisor approving same, along with your recommendations for your failure to handle this matter in a suitable fashion.]

Milwaukee is reminded this investigation is extremely important and that matters submitted will in turn be disseminated to the President's Commission, who will in turn make all communications submitted by this Bureau available to the general public after its inquiries are completed. It is, therefore, absolutely essential that extreme care be taken in the preparation of such communications in the future.

**NOTE:** An anonymous letter was received at the Bureau alleging that President Johnson knew why President Kennedy was murdered. The letter alleges other knowledge on the part of President Johnson. The United States Secret Service was furnished a copy of this letter as well as the negative results of our Laboratory examination. MI has been furnished adequate information on two occasions as to how to handle the results of this matter. [However, they have failed to comply. In view of the fact it has been necessary for the Bureau to engage in unnecessary communications with the Milwaukee Office to obtain suitable communications for dissemination, it is felt that explanations should be obtained.]
