Honorable J. Lee Rankin  
 General Counsel  
 The President's Commission  
 200 Maryland Avenue, Northeast  
 Washington, D. C.

Dear Mr. Rankin:

Reference is made to your letter dated September 1, 1964, concerning a palm print which Lieutenant J. C. Day of the Dallas Police Department testified he lifted from the barrel of the assassination weapon, Commission Number 139.

This palm print lift has been compared with the assassination rifle in the FBI Laboratory. The Laboratory examiners were able to positively identify this lift as having come from the assassination rifle in the area of the wooden foregrip. This conclusion is based on a comparison of irregularities in the surface of the metal of the barrel with the impressions of these irregularities as shown in the lift.

A photograph marked to show several of the irregularities referred to is attached.

The results of the other investigation requested in your letter will be subsequently furnished.

Sincerely yours,

J. Edgar Hoover
