Memorandum W. A. Branigan to W. C. Sullivan RE: REACTION OF SOVIET AND COMMUNIST PARTY OFFICIALS TO THE ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

sensitive sources that the Soviets were very much concerned over the assassination and, particularly, because they knew so little about President Lyndon B. Johnson and his foreign policy plans as they related to the Soviet Union. The Soviets have frequently expressed the opinion they thought the assassination was a conspiracy planned by the "ultraright." The Soviets were fearful such group planned to effect a "coup" in the United States and utilize this act to stop negotiations with the Soviet Union, attack Cuba and spread the war.

Our files indicate Communist Party officials in the United States followed the Soviet party line and also expressed the opinion the assassination was committed by individuals of the "ultraright" and that more than one individual was involved in the assassination.

From time to time articles have appeared in the Soviet press and in communist publications in this country disagreeing with the conclusions of the report of the Warren Commission. Frequently, authors of these articles quote or use data published by many of the authors who are highly critical of the Warren Commission report, including Mark Lane, Joachim Joesten, Edward Epstein, Richard Popkin, Harold Weisberg and Leo Sauvage.

ACTION:

Attached for delivery to the White House is a memorandum summarizing data in our files concerning reaction of Soviet and Communist Party officials to the assassination of President John F. Kennedy.
