Chief of Police
Dallas
Texas

Given you are a real bunch in
Dallas. Your chief witness is gone and
did you nothing. Jack died by the
order. Close mouthed. If he is to go
down as a hero he will have to
also for me one saw him, Jack as any
one else in the building. Only know
someone P. (more than one) shot and killed
a nut and did the country of a great
just like the old Piper did. Someday
a monument will be erected for Lee and
Jack as heroes, and a big bomb dropped
on what is left of the towers not just
blow it to bits. These plans are well
under way for the same medicine for
R.F.K and Walter and in due time they
both will get it. no more Kennedy in
White House. They both better quit
and live longer supporting R.F.K for he is

Already the big job has found with the will be
just to go. The enclosed clippings speak for
themselves. We are also down here
watching Kennedy actions and how they
will cover everything. They go and
watching our chance when I can expect
to be cut. I hope off. The next accident
the other shall be easy and will be
H. P. Jones to this and my other letters is
as to show to men and magazines
under when time comes.

- Tell Warren and his pals to look for
other involved in the killing of the
next day. but don't think he will find
any one. We are just to smart for
them
