Dear Mr Hoover:

Enclosed is some material that I hope will be of interest to you and your fine staff. After reading this material, you may wonder as to how I was able to compile it. I had visions of the alphabet and the numerals plus our calendar shortly after the death of the Cincinnati's manager Mr Fred Hutchinson in '64.

The rest of the facts, just fell in order. Again I hope that you will find it interesting, I remain.

Very respectfully yours,

George W. Lucas
