GENERAL INVESTIGATIVE DIVISION

Dallas furnished attached letterhead memorandum containing information written by an anonymous individual. It is a mimeographed report by "Nineteen Against Lyndon Johnson." The report takes exception to the findings of the Warren Commission and that President Johnson is morally unfit to serve as president. The writer indicated "while we do not believe that Lyndon Johnson fired the fatal bullet, we simply do not know that his policies are not today inspired by those who initiated the attack on President Kennedy."

This is being disseminated to the U. S. Secret Service and the Department.
