Re: Kennedy Assassination.

Gentlemen:

After having read Josiah Thompson's "Six Seconds in Dallas" printed in the December 2nd issue of the Saturday Evening Post, I am more than ever firmly convinced that the Warren Report was a waste of time. Why would the government expect us to put credence in a report made by men who are not schooled in investigation, as the FBI would be?

Please use your influence to get us an FBI REPORT. That assassination should be investigated and every fact explained to the American people. Governor Connally even disagreed with the Warren Report, and he was there.

Are there people in the government who are not allowing a complete study of this to be made? Let the FBI investigate that too - and make their findings public.

I am asking that both of you gentlemen use your influence to that end - a complete new investigation, with competent investigators who are not interfered with by government officials afraid of what might be found.

Thank you for your consideration.

Very truly yours,

*Alice Nelson*
