ASSASSINATION OF PRESIDENT JOHN FITZGERALD KENNEDY DALLAS, TEXAS NOVEMBER 22, 1963

The New Orleans "Times Picayune," a daily newspaper, in its issue of Wednesday, December 13, 1967, contained in Section I, Page 6, an article entitled, "PHOTOS OF DEATH PROBE -- DA," which is set forth as follows:

"Show Official with Bullet in JFK Case, Claim

"District Attorney Jim Garrison submitted to The Times Picayune Tuesday photographs which he says show an official picking up one of the bullets used to kill President John F. Kennedy.

"He said the bullet was never introduced into evidence before the Warren Commission.

"'This is just another instance,' he said, 'of the pattern of deception by the federal government in which evidence has been systematically concealed or destroyed. In this instance, however, the fraudulent activity of federal agencies and officials is here exposed by these photographs.'

"In the press release submitted with the photographs, the source of the pictures was not mentioned. Garrison could not be immediately reached for comment.

"Garrison said one of the pictures shows a man, 'obviously holding official investigative status,' leaning down to pick up the bullet as he is observed by a Dallas police officer and deputy sheriff.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

"TURNS HEAD

"In another picture, Carrison said, the official has become aware of the photographer and has turned his head away 'but it can be seen that he is now holding the bullet clenched in his left hand.'

in the second

"'Our inquiry into the status of this official picking up the bullet has indicated that he is apparently an investigative agent of the federal government - employed either by the Federal Bureau of Investigation or the Secret Service.'

"Carrison said the dark splotches on the ground in the pictures are process of matter from President Kennedy's head. A large portion of the President's skull was subsequently found near the scenes of the pictures, he added.

"The sign-clock on the top of the Texas School Book Depository, which is visible in the background of the second picture, reads 12:40 Kennedy was shot at 12:30 p.m.

"'HAD TO KNOW'

"'These photographs indicate,' the district attorney said, 'that long before the fraudulent announcement describing Lee Harvey Oswald as the lone assassin, the federal government had to know that this large caliber bullet was used in the assassination. Consequently, the federal government had to know that-inasmuch as it is impossible to fire a .45-caliber bullet from a 6.5 Wannlicher-Carcano-there had to be a number of individuals firing at the President.'

"Garrison said the bullet picked up in the photographs was a .45 caliber one.

"He also said that when Uswald was shot by Jack Ruby the federal government 'had to know that the real assissing of the President were simply getting rid of the patsy so that he could not testify against them-as well as federal employes and officials who might be involved."

_2.

"'These photographs explain why the federal government has so long concealed the autopsy photographs - the 22 color photographs and 18 black and white photographs - and has kept them under lock and key in concrete vaults,' Garrison maintained.

"The photographs also explain, he said:

"---Why not a single member of the Warren Commission dared to look at these autopsy photographs - because they knew that they would see wounds caused by gunshots from a number of directions.

"---Why the United States Justice Department under Ramsey Clark has worked so diligently to obstruct any legitimate investigation and to interfere with any trials connected with this case.

"---The President of the United States, by executive order, concealed vital files and important evidence so that no one could see them for 75 years.

"He said the photographs indicate that President Lyndon B. Jonnson must know that the Warren Commission's conclusion is a fraud and that the people of the United States have been fooled.

"There is no alternative but to conclude the entire assassination investigation and the Warren Commission inquiry comprised an 'elaborate camouflage designed to protect the assassing of President Kennedy as well as the men behind them,' Garrison said."

Attached hereto are original newspaper photographs of the photographs furnished to the New Orleans "Times Picayune" by District Attorney Jim Garrison.
