

12-10-67

Mr. Robert F. Kennedy,
Senator,

Robert. first off, i will not,
i repeat, i will not, talk to
anyone, other than you, or,
Jim Garrison, of New Orleans.
About this,

And before i reveal this
much, to you, ill say this,
if you want this you may
send your reply as of this way,
General Del, Nashville, Tenn,

Robert. Lee Harvey Oswald
did not kill your Bro, in Dallas
Tex. And for your information
a 45 Cal. Bullet. has been found
that was in said murder,

So now, its my firm belief
that i do know, who fired your
Bro. killed. And why it was done,
ill also say its obvious that
oswald knew about the matter, is
the why the Dallas Police, actually
let Jack Ruby, kill oswald,
further more for your infor-
mation, ill say this.

Court. there was 2
People, that fired your Bro. killed,
is further my belief. that
at least one woman fired a shot,
you see a woman would be
the least suspected in or on an
occasion like that, i suppose you
know that more than one shot
was fired and hit john,
you also realize a firearm
is made so a muzzle can be put
on it. And if its a good muzzle
the shot just cannot be heard a feet
away, and with ears, meter
circles & Etc. making noise, and
in my belief, on (that occasion)
a little extra noise could of be
ordered.

Even though, i dont believe
the shots came from more than
50 feet away. if that far, one
for sure fact, they (Did Not)
come from the Bldg. Earl
warden, and the Police said they
came from. only they said 1
bullet. well there was more than
one bullet hit john,
i further suggest, at least
one man here. was fired from
and also used to escape through,
