Mr. J. Edger Hoover
Chief of Federal Bureau of Investigation
Washington, D.C.

Sir;

Attorney Garrison made a statement night before last, seeming to intimidate the Johnson administration.

It was to the effect that leaned toward the impression, that the assination of President John F. Kennedy, would bring the Johnson administration into power.

Just as a common citizen, I have always thought that, the assasination of our late President, was the Russian retaliation, by a brain washed man, returned to America to make a retaliation for the Cuban Missile situation, which caused Russia to loose face in the world.

May I suggest that you make a close secrunity of Mr. Garrison's investigation and any evidence, which he might have toward the truthful answer to the assination?

Who furnished the money for Oswald and any of his associates to return to America and to live and organize and to so sussefully carry on their activities and to carry out their plot?

Did Oswald have any known bank accounts or does any of the men, which Mr. Garrison keeps accusing of the plot, have any unknown large bank accounts or any Communist connections?
