Dear Sirs

I over heard a conversation about two years ago. Some one mentioned of a man named Ireshovaka Helmsky some kind of a Russian Agent trying to escape to Cuba he was supposedly linked with the killing of President Kennedy also of an American FBI Agent named Frank Martin supposedly chasing him. Nothing was ever mentioned about this in the newspapers or on radio. Until recently I meet someone who also knew about it threw their cousin who was an Agent of yours. they told me that I was not suppose to know anything about this. Well it's pretty absoutely I do. What I would like to know is is this all true or is everything I have heard all a pack of lies?

Sincerely

/s/ Suzie Sherman
