Specimens received 2/24/69

Q629-C329 Bullet found at Commerce Street and Stemmons Freeway,
Dallas, Texas

Results of examination:

Specimen Q629-C329 is a .45 caliber steel-jacketed soft point bullet which has been fired from a barrel having six lands and grooves, left twist. The rifling impressions in this bullet are the same as those produced by Colt, Norwegian and Star automatic pistols and Colt revolvers. There are not sufficient microscopic marks remaining on this bullet for identification purposes. It was not possible to determine the length of time that this bullet has been exposed to the weather.

It is to be noted that this bullet is different from any ammunition examined in the assassination case and could not have been fired from the assassination rifle.
