the Warren Report,
Three shell casings were found other supporting evidence to show

to develop a buller which will turn

The built in possession of The pressed to make three (aimed) Councilor shows no fracture of the shots in this brief wink of time, outer easing except, possibly, a lit could not have made four, pinpoint hole. It is fouthful that enough leave could have pessed. through a pinpoint hole to leave the traces found on the Dallas curb. Councilor Investigation Team believes that a thorough ballistics shots and the disposition of the being the one which left lead traces bullets:

on the curb,

If only four bullets were fired-bullet hit Kennedy in the back, and this was one of the four--it would have to be the first shot which ldt Kennedy.

Wording of lavitation

This is the wording of The Councilor's official invitation to ballistics laboratories:

"We have in our possession a bullet which is purported to be one of those fired at the time of the John F. Kennedy assassination.

"We know how this bullet came We know how this bullet came to us and the story of its history since November, 1963 is plausible.
If this bullet should prove to be
part of a hoax--which we doubt--

part of a hoax-which we doubt-then the very existence of an elaborate hoax would in itself be helpful in arriving at the true facts of the Kennedy Assassina-

Because of the extreme importance of this bullet to American history and to the possible unmasking of the Warren Commission Report, we are not willing to permit the item to leave the eyesight of an incorruptible agent selected by The Councilor as custodien. Within this framework of precaution, any reputable ballistics laboratory or ballistics expert will be permitted to examine the bullet in any menner which does not harm it for further examination by other ballistics experts.

won by other ballistics experts,

"We are taking the further precaution of making scaled photographs of the bullet and its
deformities to grard against
sleight-of-hand substitution,"
