Dear Mr. Kelley:

Please allow me to thank you for sending the requested seventy three (73) Xeroxed pages of raw data generated by Mr. Gallager on the artifacts from the assassination of the late President John F. Kennedy.

As you can see from the enclosures I have sent payment to your Mr. Thomas Bresson.

There remains the sixth item of request which I sent by Mailgram from Chicago and received by you two days prior to receiving my certified letter 792591 with the first five requests. This sixth request reads:

"Advise amount of metal removed from each exhibit for chemical and or neutron activation analysis and amount of each remaining and permit me to submit any remaining to neutron activation analysis."
