UNITED STATES GOLERNMENT Dep. AD As Memorar. Jum as. AD a Lat. Dir. : Mr. Cleveland TO DATE: 9/25/75 Ext. Affairs Files & Chi Gen. Inv FROM C. W. Hurst Plan, & Eval. SUBJECT / JOHN F. KENNEDY ASSASSINATION MATTER A L TT K WILLIAM - - CRK, NEW BRLEANS Fohmen This concerns the reported teletype dated 11/17/63, allegedly forwarded to all SACs from the Bureau concerning the alleged threat by a "Militant Revolutionary Group" to assassinate the late President Kennedy in Dallas, Texas, on 11/22-23/63. It is obvious to the Special Investigative Division for a number of reasons, that this communication could not have originated at the Bureau. With particular regard to the wording in that reported teletype: "All receiving offices should immediately contact all CI's and PCI's...," that terminology would not have been utilized but instead, the wording, "All logical informants and sources...," would have been used. Additionally, no mention would have been made concerning FD-302's and LHM's. Furthermore, the Bureau would have instructed the field to insure that any information substantiating this alleged threat be provided to the Bureau telephonically and with appropriate dissemination made.
